Pastor's Thought for the Sabbath

This week, I had the opportunity to do Week of Prayer at Highland View Christian School. It was really fun to be with the students for four days.

During our time together, I took the students on a journey to explore amazing wildlife. We learned about glass frogs—how it can jump more than ten feet high. We learned about red pandas—how they have flexible ankles and can climb down a tree headfirst. We also learned about axolotls—how they can re-grow their body parts if they get damaged. Lastly, we learned about the baobab tree—how they can store a lot of water in order to survive the dry climate they grow in. These animals (and tree) are wonderfully made because they bring us to see the love of God in their own unique ways.

The psalmist says, “The eyes of all look to You, and You give them their food in due season. You open your hand; You satisfy the desire of every living thing” (Psalm 145:15-16). I do not know about you, but I enjoy spending time in nature because I get to learn more about God and His amazing creation. More importantly, I get to learn more about God’s amazing love. Ellen White put it beautifully, “Nature and revelation alike testify of God’s love” (*Steps to Christ*, p. 9).

I would like to encourage you to take some time to walk and talk to God in His second book of nature. You will be amazed at how much you will appreciate God’s amazing work!

Montana conference campmeeting will be held this summer at Mt. Ellis Academy in Bozeman, **July 12–15**—mark your calendar! We would love to see you all there!
