

Farewell from the Khut Family

We will be moving to the Helena district very soon, and we will miss each of you! We will continue to pray for you individually and as a church. May God bless you as you continue to work to grow the church here in Butte. We will always remember our time with you, and would love to hear how you are doing from time to time!

Pastor Ney, Emily, William, & Sophia Khut

Worship

Just ask the waves if they are stilled at the mention of His name
They'll say, "My God is still the same."
Ask the walls if they still fall at the mighty sound of praise
They'll say, "My God is still the same."

Just ask the words you prayed in desperation if they're heard
They'll say, "My God is still the same."
Ask the grave if it's strong enough to keep hope in it's chains
They'll say, "God is still the same."

—"My God is Still the Same", Sanctus Real

When did He break His promise?
When did His kindness fail?
Never has, never will
My God is still the same.
When did He lose His power?
When did His mercy change?
Never has, never will
My God is still the same.

Not once did He ever stop moving
Not once has He ever let go
Not once did He ever stop proving
Our God is in control!

Butte: Our Church

April/May 2023

I recently had the opportunity to do Week of Prayer at Highland View Christian School. It was really fun to be with the students for four days. During our time together, I took the students on a journey to explore amazing wildlife. We learned about glass frogs—how it can jump more than ten feet high. We learned about red pandas—how they have flexible ankles and can climb down a tree headfirst. We also learned about axolotls—how they can re-grow their body parts if they get damaged. Lastly, we learned about the baobab tree—how they can store a lot of water in order to survive the dry climate they grow in. These animals (and tree) are wonderfully made because they bring us to see the love of God in their own unique ways.

The psalmist says, "The eyes of all look to You, and You give them their food in due season. You open your hand; You satisfy the desire of every living thing" (Psalm 145:15-16). I do not know about you, but I enjoy spending time in nature because I get to learn more about God and His amazing creation. More importantly, I get to learn more about God's amazing love. Ellen White put it beautifully, "Nature and revelation alike testify of God's love" (*Steps to Christ*, p. 9).

I would like to encourage you to take some time to walk and talk to God in His second book of nature. You will be amazed at how much you will appreciate God's amazing work!

Pastor Ney
